- b) The United States
- c) Canada
- d) the European Union

Answer: Russia

5. What is the aim of Mr. Laliberté One Drop Foundation?

- a) To make space tourism possible
- b) To create a better world for children
- c) To make sure everyone has clean water
- d) To support the arts, and in particular, acrobatics

Answer: To make sure everyone has clean water.

1. What reasons can you suggest to explain why Mr. Laliberté Considers it “a great privilege” to live on planet Earth?

Mr. Laliberté Considers it “a great privilege” to live on planet Earth because you can do a lot of earth and it is a great privilege because you can accomplish a lot to live on planet earth. Another reason is because he probably thinks that life is really great and he has accomplished a lot in his life so that would be a reason why he thinks it's a great privilege to live on earth.

2. For what reasons do you agree with Mr. Laliberté's perspective? For what reasons do you disagree?

Reasons that I agree with Mr. Laliberte's is because that he is paying \$35 million dollars just to make sure that everybody on earth has clean water. Another reason why I agree with Mr. Laliberté is because that it would be a really fun experience to travel to space but a little too expensive. Reasons why I disagree is because he wasted a lot of his money on a ticket to go to space. Another reason why I disagree is because with the \$35 million dollars that he spent on the ticket to go to space he could've done a lot more with it he could buy more than just a space ticket he could buy 1 million times more what he spent on that ticket to space.
